### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Salvatore A, Sidoti on 11/09/07.

The application has been amended as follows: In claim 6 delete the number "6" and replaced it with the number "5".

2. Claims 1-13 allowed.
3. The following is an examiner's statement of reasons for allowance: Applicant has discovered a novel and unobvious amination process. The claims are distinguished from the prior art by the use of compressed carbon dioxide. The prior art teaches away from the use of compressed carbon dioxide in amination reactions because the expected competing reaction of forming carbamic acid would be undesirable. Applicant has unexpectedly discovered that compressed carbon dioxide is useful in an amination process using selected N-silylamines as reactants. All claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
